PAUL J. STANFEL

October 28, 2019

CECSD Board of Directors

I served on the Board as a director in the mid eighties. This was a critical time when the topic of gates and road improvements and not just repair were the major objectives. Budgets were limited but the board was able to pave more miles per dollar than had previously thought possible. I believe it's time we find a way to get the most possible from the funds available while exploring other funding options.

I am currently the president and CEO of Creative Systems, a nationwide company, with a degree in Business Management and 47 years of managing complex projects. I hold General Engineering Contracting licenses in the four western States and currently manage projects in 50 states.

If chosen, I wish to forgo the Directors compensation but would require directors insurance.

If chosen, I would consider it an honor to help in the community that I have lived since 1980. Cameron Estates is a special place and I would be excited to preserve that.

Sincerely,

Paul J. Stanfel
