Karen,

We are working with PG&E to get power up to our property shown below as PARCEL 3 on Native Lane. Below in blue is roughly where power needs to be pulled. PG&E is saying it's much easier and less costly to go overhead, but I'm sure neighbors would rather it be underground and not obstruct views. Can you direct me to the right person to talk to with CECSD to inquire about permission to trench into the road in order to bury the power lines? Thanks.
