Scope Details-Enclosure

Sonitrol will install a new non-metallic, climate-controlled enclosure with an A/C unit. This will allow for your router and cell modem to be placed within the enclosure along with the NVR. The enclosure will need 120v AC power, provided by Cameron Estates CSD. **THE PRICE, SCOPE & SYSTEM DETAIL IN THIS PROPOSAL ARE PER GATE, AND MAY BE INSTALLED ONE AT A TIME (PHASED).**

- This enclosure is excluded from Sonitrol's Platinum Service; mfg warranty still applies
- All new equipment is owned by Cameron Estates CSD; any future use or decommissioning/disposal of it is at the sole discretion of the owners

Work to be performed by others:

- 120v Power & all network connectivity
- Using existing conduit & raceways
- Provide & install CSD owned router & cell modem

Provided by Sonitrol:

- All CAT6 wire & equipment listed in scope and proposal/addendum

Per Gate Enclosure Design & Cost

BW-242410ACE

Polycarbonate, non-metallic enclosure, 24"W x 24"H x 10"D with a 800 BTU AC unit

NOTE: DO NOT MOUNT enclosures equipped with air-conditioners on walls of apartments, offices, condos or homes due to slight vibration from the AC unit, which might become a nuisance to those who live/work on the other side of the wall. Mier recommends mounting these units on concrete pads using vertical struts of angle-iron or poles, or mounting on walls not common to living/work areas.

The Benefits of E-Coat BW-ECOAT is standard on the ACE Series, and is an accessory for all other units. It is a protective layer under the paint that further helps prevent corrosion for installations near coastal areas or other highly corrosive environments. E-Coat is the same black coating you see outdoor fences or the rails of your car seat. **NOTE:** Polycarbonate Enclosures are already NEMA 4X and do not need E-Coat

Scope Details-Cameras

Sonitrol will install a new 3xLogic 4 channel NVR inside a new non-metallic, climate-controlled enclosure with A/C. We will also replace the existing three cameras with a new 5 megapixel & two 2 megapixel cameras. We will run new CAT6 wire to these cameras, using your existing conduit and raceways. The NVR & enclosure will need 120v AC power, and a network connection, provided by Cameron Estates CSD. **THE PRICE, SCOPE & SYSTEM DETAIL IN THIS PROPOSAL ARE PER GATE, AND MAY BE INSTALLED ONE AT A TIME (PHASED).**

- All new equipment is owned by Cameron Estates CSD; any future use or decommissioning/disposal of it is at the sole discretion of the owners

-NOTE: SONITROL IS ANTICIPATING 60 DAYS STORAGE @ 15FPS, BASED ON CSD'S FORMULA OF 10 EVENTS/HR, 24/7, & 20 SECONDS OF RECORDING PER EVENT
